

3/29/2020

As we work through these stressful days, we ask that the residents of our town co-operate with the orders and directives put forth by Governor Gina Raimondo, CDC and RI Department of Health. As a community we will weather the storm. We've heard the road ahead will not be easy, and things may become worse before it gets better. But, the Town Council, Chief Petrin, Chief Raynes and I, are taking every step and precaution for the safety of our residents. I ask that if you have any questions or concerns, as to the information that is being sent out, that you refer to the Town's website, www.littlecomptonri.org. All official announcements and Memos will be posted on a link on the home page. The Town Hall will remain closed until further notice. Our web site has contact information for all town offices. If you have any business to be conducted at Town Hall please reach out to the proper Department. Stay Safe, Stay healthy!

God Bless

Antonio A. Teixeira, Town Administrator
